NEW YORK TELEPHONE COMPANY

The TELEPHONE Gets a NEW "DIMENSION"

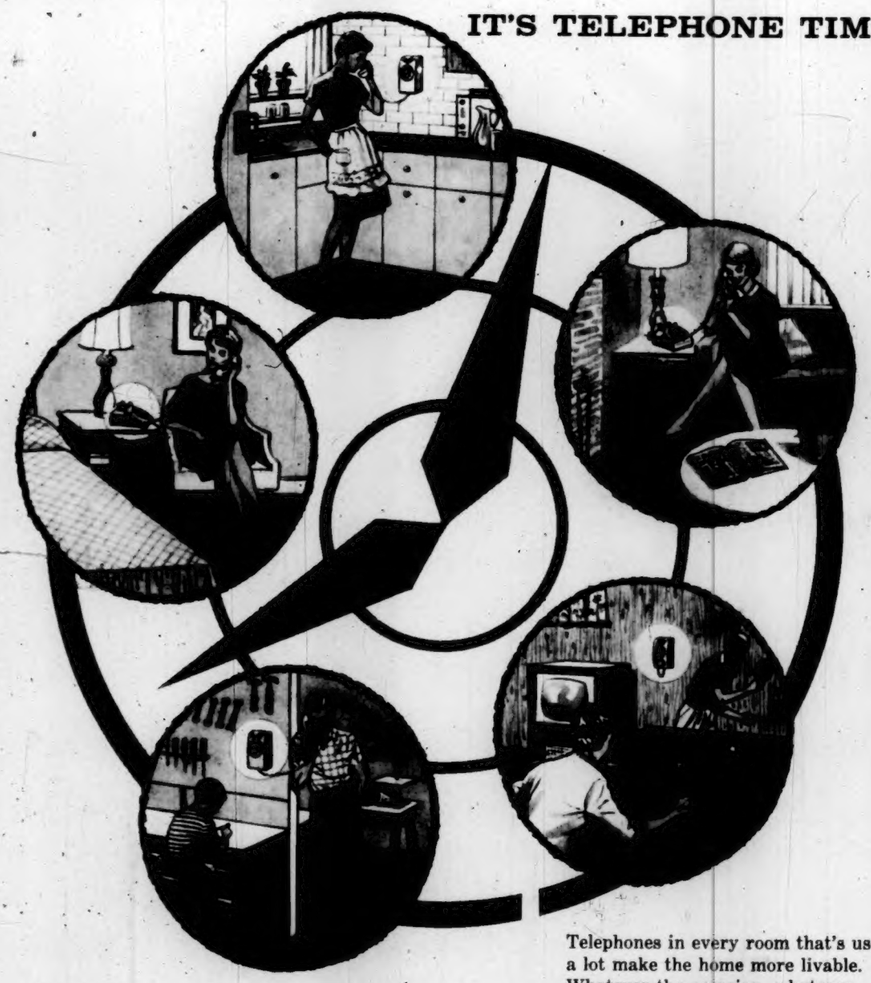
With a Speakerphone the businessman can refer to papers, take notes, check data while holding a telephone conversation — without lifting the receiver.

The SPEAKERPHONE permits *"hands-free"* Telephoning!

Your voice goes through a tiny mike and the other person's voice comes to you out of a small loudspeaker. The Speakerphone can be used with a single line or with a Button Telephone, as shown. And it can also be used as an ordinary telephone.

A Speakerphone permits the executive to have his staff or associates gather about his desk to take part in important telephone calls.

Housewives find the Speakerphone handy in the kitchen . . . lets them make and receive calls while busy cooking, ironing or feeding the baby.



★ For more information about the Speakerphone . . . or other telephone equipment or services . . . just call the telephone business office.
